SUMMARY

Full Stack Developer with expertise in React.js, Node.js, Express.js, and MongoDB. Adept at building responsive front-end interfaces and robust back-end architectures. Experienced in creating secure, scalable web applications with a strong focus on performance and user experience.

WORK EXPERIENCE

SDE - 1, Onelab Ventures, Pune

Sept 2024 - Present

- Develop and maintain scalable web applications using the MERN Stack (MongoDB, Express.js, React, and Node.js).
- Collaborate with cross-functional teams (designers, product managers, and developers) to deliver high-quality products.
- Build RESTful APIs to support seamless communication between client and server.
- Ensure responsive design, cross-browser compatibility, and a high-performance user experience.
- Conduct code reviews, write clean and maintainable code, and troubleshoot for optimal application performance.

Software Engineer, BeingTheParent.com, Bangalore

May 2023 - May 2024

- Enhanced data-driven decision-making by 40% through dynamic data visualization in the Admin Portal using React Recharts.
- Strengthened security with role-based access controls in the Admin Portal, leveraging Bootstrap and React.
- Integrated Single Sign-On (SSO) with Apple and Google Sign-In, increasing user retention by 15% and conversions by 25%.
- Led AdTech platform frontend development with Ant Design and React, boosting ad revenue and optimizing user experience with Context APIs for advanced state management.

EDUCATION

Crio.do MERN Stack Development

University of Petroleum & Energy Studies

Jan 2022 - Jan 2023

Bachelor of Computer Applications

University of Petroleum & Energy Studies

Aug 2018 - Jul 2021

Intermediate

Bharti Public School

2016 - 2018
